Looking for Space

Exercise Objectives:

The object of this exercise is to develop each player's game vision and quick decision making.

Field Preparation

- ☐ Entire group
- ☐ Area 20 yards x 20 Yards

Coaching Pointers:

Divide the team into four equal groups. Identify each group using colored bibs. Each team is positioned at one side of the square as in the diagram above. On the coach's command the players all sprint across the square and back again 5 times. The first team to get all their players back wins. Players must go "flat out" and be visually alert so they don't crash into other players.

Focus on:

- ☐ Visually scan to find space to run into.
- ☐ Change of pace and direction.

Attack the Space

Exercise Objectives:

The object of this exercise is to develop each player's game vision and spatial awareness.

Field Preparation

- ☐ 2 even groups of players.
- ☐ Area 40 yards x 40 yards
- ☐ Cones
- ☐ Supply of balls
- ☐ Colored bibs

Coaching Pointers:

Players are divided into two groups. Identify each group with colored bibs. Players jog around the grids, but can never be in the same grid as a different color. Start slow paced then progress to jogging a square, then sprinting a square.

Variations

Each player performs the same exercise but now using a ball.
One group starts off with a ball each. Can only pass to a player of a different color bib.

Scan the Field

Exercise Objectives:

The object of this exercise is to develop each player's game vision and spatial awareness.

Field Preparation

- ☐ 2 even groups of players.
- ☐ Area 20 yards x 30 yards
- ☐ Cones
- ☐ Supply of balls
- ☐ Colored bibs

Coaching Pointers:

Players are divided into two groups of 4 to 6 players. Identify each group with colored bibs. Players pass the ball around their own grid. After several passes, the player in possession of the ball looks up, finds a player on the opposite grid, establishes 'eye contact' then plays a pass to the player. Players must always be alert and scanning the field.

Variations

- ☐ Player can now check into the middle zone and play a quick one touch pass back.
- ☐ Players can perform take over's.
- ☐ Player can now run with the ball to the opposition grid. When this happens one player from that grid must run to the opposite grid and balance the group

See the Run

Exercise Objectives:

The object of this exercise is to develop each player's game vision and spatial awareness.

Field Preparation

- ☐ Group of 6 players.
- ☐ Area 20 yards x 30 yards
- ☐ Cones
- ☐ Supply of balls
- ☐ Colored bibs

Coaching Pointers:

Six players are placed in a square 20 x 20 yards. The players are numbered one through six. The players pass the ball around the square unrestricted. After several passes, player #1 makes an explosive run outside of the square. Whichever player is in possession of the ball must quickly play a through pass to player #1. Player #1 returns to the square and the drill is repeated, next time player #2 makes the run.

Focus on:

- ☐ Players must always be alert to player making the run outside the box. Scan the field.
- ☐ Ball must be played early and into the path of the run.
- ☐ Progress from unrestricted passing to 'two touch' then 'one touch passing'.

- ☐ Colored bibs

Coaching Pointers:

Divide the team into two groups. Identify each group with colored bibs. As a warm up, start the practice with both teams passing a ball inside the square. Play is unrestricted. Then, remove one of the balls. First team to make 10 consecutive passes wins. Still unlimited touches.

The play is now progresses so that the team in possession must follow a set sequence. The team must play "One Touch, then "Two Touch" then "One Touch, then "Two Touch" in this sequence. If they fail. The ball is turned over to the other team.

- ☐ Quality passing techniques. Good disguise, pace and accuracy.
- ☐ Support with deep and wide angles.
